Direct Replacement Parts
for CAT® System

MaxDRP™ DIRECT REPLACEMENT PARTS FOR CAT® SYSTEM

Each Bucyrus Blades tooth is designed to be stronger and last longer than most teeth on the market today. Consistent quality is built into every step of the manufacturing process. All our teeth are cast products allowing better design control for better fitting teeth and performance.

The Best service for direct replacement parts

Alloys: Bucyrus Blades has achieved the optimal balance between hardness and toughness with its A92 alloy. This tough alloy is the right steel for the right job.

Distribution: Teamed with ESCO's European Distribution Network and with parts stocked in ESCO's Distribution Facility in Belgium, ESCO, Bucyrus Blades and ESCO's Distribution Network are able to offer a larger variety of parts, local availability, and reduced lead-times thereby continuing our commitment to quality parts with unsurpassed customer service.

Service: Distributors assist the end user by offering problem solving solutions to decrease down time, increase wear life and profits.
